

# The BCD Value for Healthcare Facilities

## The Need for Video Surveillance at Healthcare Facilities

At any given time, there are hundreds - if not thousands - of employees and patients in healthcare facilities. Whether you're monitoring inventory levels of medicine, PPE, or medical supplies to preventing patient overflow and managing occupancy levels, having a scalable and reliable video surveillance system is critical in improving operational efficiency. In hospitals and healthcare facilities, it is common to need constant access to historic and live video feeds for liability protection.

## Benefits of BCD for Healthcare

As one of the industry leaders for providing IP video data infrastructure solutions, BCD offers a wide range of solutions that tailor to the needs of healthcare facilities. While each solution is purpose-built in one of our ISO 9001:2015 certified facilities, all BCD systems have the following attributes in common:

- NDAA, TAA and BAA compliant appliances
- Cyber-hardened hardware
- Validated with top VMS, video analytics and access control solutions
- [Harmonize Bridge](#) integration for hybrid cloud connectivity and disaster recovery
- [Harmonize RMM](#) for full system health monitoring, including nurses call stations, and predictive failure
- 24/7/365 pre- and post- sales support

## Recommended Solutions

### vSTORE High-Availability Virtualized Infrastructure

Virtualizing your hardware is an incredible way to optimize your system resources in a shared, virtual environment and reduce ownership and investment costs of additional hardware. Virtualization also provides [high-availability and automatic failover](#), ensuring your data is always accessible and secure.

### Milestone Rapid REVIEW Servers

BCD offers a range of video workstations and servers that come pre-loaded with [Milestone Rapid REVIEW](#). Powered by NVIDIA GPU's, these systems are hybrid cloud compatible and allow users to easily review hours of video in minutes to gather valuable and actionable insights that help secure your patients and staff.
