

The BCD Value for Correctional Facilities

The Need for Video Surveillance Corrections Industry

In correctional facilities, video surveillance is crucial for maintaining security and ensuring inmate and staff safety. Cameras cover cell blocks, common areas, and perimeters, providing high-quality footage for deterrence and evidence. Video analytics enhance monitoring capabilities, detecting unauthorized movements and suspicious behavior. It plays a vital role in maintaining order and a secure environment.

Benefits of BCD for Correctional Facilities

As one of the industry leaders for providing IP video data infrastructure solutions, BCD offers a wide range of solutions that tailor to the needs of correctional facilities. While each solution is purpose-built in one of our ISO 9001:2015 certified facilities, all BCD systems have the following attributes in common:

- NDAA and TAA compliant hardware
- Cyber-hardened hardware
- Validated with top VMS, video analytics and access control solutions
- [Harmonize Bridge](#) integration for hybrid cloud connectivity and disaster recovery
- [Harmonize RMM](#) for full system health monitoring and predictive failure
- 24/7/365 pre- and post- sales support

Recommended Solutions

vSTORE High-Availability Virtualized Infrastructure

Virtualizing your hardware is an incredible way to optimize your system resources in a shared, virtual environment and reduce ownership and investment costs of additional hardware. Virtualization also provides [high-availability and automatic failover](#), ensuring your data is always accessible and secure.

Surveillance HA

Exclusive to Milestone XProtect-based projects, [Surveillance HA](#) is a powerful, on-premises, zero-loss failover solution. With Surveillance HA, users avoid blackout periods and data loss with a secondary recording server on-guard to prevent system downtime.
